Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

STATUS

Claims 1-28 and 30-54 remain pending.

Applicants after final amendment filed on January 4, 2007 will be entered and is hereby acknowledged.

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

The examiner would like to request an interview in order to clarify the scope of the claimed invention.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 18, 24,27,30,31,32,3,38,50 and 52 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims recite the limitation "state of the software object" this limitation is vague and indefinite, the examiner submits that the definition of the state of the software as cited in applications specification "The state of the software object may correspond to the current values held in the stack, heap, global variables, registers, program counter and the like" does not limit the possibility that the content contained in a static storage device (RAM, CDROM etc...).

Claims 23,24,33,36,39 and 53 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims recite the limitation "predetermined input" this limitation is vague and indefinite,.

Claims 34, 37 and 40 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims recite the limitation "at least one property" this limitation is vague and indefinite, any object would meet this limitation,

Claim 49 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims recite the limitation "dynamically-determined fashion" this limitation is vague and indefinite a fashion does not limit the claimed invention.

Claim 49 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These claims recite the limitation "special input" this limitation is vague and indefinite a fashion does not limit the claimed invention.

Art Unit: 3621

Claims dependant upon the above rejected claims are rejected for at least the same reasons.
